

Standard Form Agreements Available on the Pantellos Website

The primary agreement governing participation in the Pantellos marketplace and access to Pantellos services is the Pantellos Uniform General Agreement (UGA) which should be read in conjunction with the Table of Definitions. In order to establish your company as a Pantellos Trading Party, you will need to complete and submit a Trading Party Record. The Trading Party Record is similar to a registration form in that it provides Pantellos with contact information for your company but it also serves as the signature page for the general contract documents.

As a Trading Party, you can choose which of the Pantellos services would best serve your business needs. Schedules to the UGA contain the terms which are applicable to particular Pantellos service offerings; the current form schedules are Schedule C - Collaboration Processes and Schedule M – Marketplace Services. If you wish to take advantage of the e-commerce opportunities offered by Pantellos, your transactions will be governed by the terms of Schedule M, but if you want to develop a Pantellos Collaborative Agreement under which Buyer and Supplier Trading Parties can purchase goods and services, then Schedule C will be the basis of that relationship. For each service offering, you will need to execute a Service Agreement which outlines the specific terms of your agreement with Pantellos. Service Agreement forms should be completed with the assistance of a Pantellos Development Manager and must be executed or acknowledged by both parties.

All of these documents together are referred to as the “Services Documents”. From time to time, you may also need to complete certain additional forms, questionnaires and agreements for other Pantellos services. In an effort to ensure that all Trading Parties have the opportunity to engage Pantellos on an equal basis, Pantellos does not “customize” the standard form agreements but may, when necessary to meet the unique needs of a particular supply chain, add provisions to an individual Service Agreement which clarify or expand the UGA and the applicable Schedule(s) to accurately express the parties’ agreement relative to specific terms and conditions.
